New Iridology Chart -Jo Francks MH, Iridologist

Here at the School of Natural healing, we are pleased to announce our new Iridology chart. Dr. David Pesek, founder and director of the International College of Iridology, and instructor of Iridology, has helped us create a new Iridology chart using Dr. Christopher's formulas. We are excited about this chart because it provides information on which of Dr. Christopher's herbal formulas to use for the different areas of the body as seen in the iris. The chart is color coded and is designed to assist in choosing the proper treatment when a weakness is discovered in the iris of the eye. When a weakness is seen in a particular area of the iris, you can look at the chart to see what the color and body system is in that area. Then you can find that color in the information section of the chart and see what the recommended formulas are for that weakness. This chart would be helpful for someone who has a basic knowledge of Iridology and iris signs. It would also be useful to have a general knowledge of Dr. Christopher's formulas. What a great idea! We have it available now for you to purchase, only through Christopher Publications.

If you've been thinking about learning Iridology there's no better time to start than now. The Iridology program we offer at the School of Natural Healing is, in my opinion, the best in the world. Dr. David Pesek gives over 20 hours of thorough instruction on the art and science of Iridology. Follow this link http://snh.cc/College_of_Iridology.html to learn more about the Iridology program we offer at the School of Natural Healing.
